

IN THE SPECIFICATION

Page 7, replace the paragraph starting at line 24 with the following:

-by the term "approximately", referring to the molecular weight, is meant the molecular weight measured by viscometry \pm the theoretical weight of a disaccharide unit, including the weight of the sodium, calculated as 461 in the case of an epiK5-N-sulfate-derivative and 806 in the case of an epiK5-N,O-oversulfated-derivative with a sulfation degree of 4.35 [[4.26]];
